

IOSA Airline Auditor Training (3 days)

Fact Sheet

This three-day training provides participants with the necessary skills and techniques to understand the IOSA program and audit against the IOSA requirement. The course allows participants to gain both theoretical and practical knowledge, while benefitting from the experiences of AQS as an Audit Organization (AO). Participants will become more familiar with the IOSA program and documentation.

This training course was developed based on the IOSA Quality Assurance Program, and it fully satisfies the initial and recurrent training requirement in accordance with the Organization (ORG) requirement. Most importantly, the latest developments in the IOSA program will be shared in this course, ensuring that participants can be prepared for any upcoming changes in the program.
