

SMS for Safety and Quality Professionals

Fact Sheet

Our SMS for Safety and Quality Professionals training course has been developed for everybody that has responsibilities for implementing and managing the Safety Management System (SMS). The main focus is on reducing costs and avoiding non-compliance when developing your SMS concept.

During this 2-day training course you will learn how to convince your colleagues and management of the benefits of an SMS. You will understand the new roles and responsibilities used for a systematic risk management. You will also get to know the liability issues arising from SMS regulations and learn to avoid pitfalls.
