

# Safety Management Training (i.a.w. CAMO.A.305(g))

## Fact Sheet

Regulation (EU) 2019/1383 amending Regulation (EU) No 1321/2014 introduces a new structure and new types of organisations (Part-CAO and Part-CAMO) in the Continuing Airworthiness domain, as of 24 March 2020. Part-CAMO organisations will gradually replace Part-M Subpart G organisations and, after 24 September 2021, there should be no more Part-M Subpart G organisations.

In this course you will learn about the implications of these changes in your organization especially as it relates to safety management. Participants will gain knowledge about developing a Safety Program in line with the regulation and conducting Safety Risk Evaluations applied to the field of Continuing Airworthiness to achieve an efficient and effective implementation of the regulatory provisions.

# **Safety Management Training (i.a.w. CAMO.A.305(g))**

## Syllabus

- General Introduction to Safety Management

Overall, the SMS/CAMO training is a very good course that offers new perspectives and ideas, helping to improve the participants' skills and consequently their companies' SMS. The instructor's long-term experience in aviation gave a broad overview of all topics and allowed us to see situations differently. AQS offers a very nice training facility with well-experienced professionals that are fun and easy to work with.
